## *From the Desk of Mrs. Naas:*

We had another successful week in 6th grade! We are in a routine and have a good rhythm to our day. Everyone seems happy and eager to learn.

Thank you to Mrs. Stevens for organizing the kayak trip, loading coolers, piecing together car assignments, and making sure that the student's experience to Turkey Run was nothing short of amazing! I think we can all agree that this is one of the many things that make SMS special. Also, a thank you to the Rockets Foundation for covering the cost of the trip and to our parent chaperones: Casey Smith, Alissa Trail and Brooke Ile. It was a beautiful day in God's creation.

Yesterday at Mass students got to sing in the choir with Mrs. Lowe. They did a fantastic job! They will continue to have a scheduled choir rotation. Ask them when they sing and come join us anytime at Mass to hear their beautiful voices!

Students will be taking their first Social Studies quiz on Tuesday over Map Skills and Geography. There will always be a study guide that we will check together in class before the quiz and we play a review game the day before the quiz. Ask your kiddo if they're ready for the quiz!

Did you know that you can check your students grades in the FACTS Family Portal? This is the same website that you used when you registered your student online. I have had all students create their own accounts and they are able to keep track of their grades. We iterate that it is very important to check grades often, and I encourage you to do the same :-)

Enjoy the Labor Day Weekend!

**Religion:** Seven Sorrows of Mary

**Science:** Density

**Math:** Continue working with Decimals

**Social Studies:** Map Skills & Geography Review, Quiz TUESDAY!

**ELA:** Myths, Legends, Fairy Tales, Folktales
