## What We Are Learning!

Wow what a wonderful week we had talking about the weather. We experienced sunny, cloudy, windy, but mostly rainy this week. We wrote in our journals about our favorite weather and what wind moves (a fun prediction activity using straws). During centers we played in water to see what floats or sinks, played with water beads, and painted raindrops by number. The littles loved our Walking Water Experiment. We worked on the letter W with our HWT Program using Play-Doh, iPads, chalk boards, and paint doobers. We also rotated through several fun science centers. In Religion we talked about our 4<sup>th</sup> quarter virtue of patience.
