## What We Are Learning!

What an awesome Catholic Schools Week we had! The littles enjoyed dressing up and participating in the fun activities. We spent the week learning about space and stars through books and videos. We painted a moon and a solar system, stamped a night sky, did a space maze and a rocket color by number, wrote in our journals about the moon, and made a book about space words. We counted moon rocks and had a rock toss, and even made our own moon sand. We worked on the letter B with our HWT Program using Play-Doh, iPads, chalk boards, and paint doobers. The littles sure did like playing with balloons all week! In Religion we talked about how we are both alike and different from one another.
