## What We Are Learning

We spent the week learning about space through books, songs, and videos. We painted a moon and solar system, stamped a night sky, did a space maze and a rocket color by shape. We wrote in our journals about the moon and made a book about space words. We counted moon rocks and had a rock toss, and even made our own moon sand. The littles loved our rocket experiment! We worked on the letter R with our handwriting program using Play-Doh, iPads, chalk boards, and paint doobers. We also rotated through several alphabet and math centers, and practiced matching capital and lowercase letters. In Religion we talked about how the littles are changing and growing and how a butterfly grows. Fr. Robert visited our classroom and talked about Lent and prayed with us.
